1886

1863
23
1886

When Henry Ford was 23, his father persuaded him to come home to the farm. He stayed on the farm for a year, then he married Clara Bryant. They built a house & lived on his farm for about 2 yrs. He operated a sawmill (not much farming) sold lumber, and repaired farm machines. Henry returned to Detroit & became an engineer for the Detroit Edison Co. Within a few yrs,

he was made chief engineer. During this time, electric ~~car~~ cars had been built, but their batteries had to be charged every 50 mi. Ford decided to build a gasoline powered auto. He built a workshop in a shed behind his house. Every evening he worked on his auto.
